Re: Black People Unwilling To Receive Experimental Vaccines Are Stupid??

\*\*\*\*\*

Mr. Al Sharpton,

On March 28, 1986, Dr. Robert B Strecker and Attorney Theodore A Strecker presented the Historic Document, **"This Is A Bio-Attack Alert"**, to Senate, Congress, FBI, CIA, NSA and Governors of several States. They exposed Vaccination Programs being used to Spread AIDS, Cancers, Leukemia's and other Diseases, in an **Attempt to Overthrow America**. These Programs were funded with American Tax Dollars.

Dr. Peter McCullough an American Cardiologist at Baylor University Medical Center, has exposed COVID Vaccines as a Bioweapon, harmful to the unborn, as well as any person injected and gives detailed explanations on the dangers of COVID Vaccines. UMOJA Research has uploaded ten of his interviews on The Internet Archive, at Archive.org, Search, umojaresearch and open Folder, Peter McCullough, if interested in the Truth About COVID Vaccines. Dr. Peter McCullough is more than qualified to give advice why people should not receive COVID Vaccinations and the Dangers to those receiving these vaccinations. Black Doctor Christina Parks, PhD, also warn Black People from taking the Experimental COVID Medical Injections.

**Your Comment "Black People Unwilling To Be Experimented On With COVID Vaccines Are STUPID" is Insulting, Ignorant and Unprofessional.**

As a Black Community Leader, it's your responsibility to "Protect the Black American People" from injury and harm from the Medical Tyranny of Dangerous Drugs and Vaccines.

Should you be truly be concerned for Black People, please contact Dr. Peter McCullough of Baylor University Medical Center, 3500 Gaston Ave., Dallas TX 75246. Phone 214-820-7911, for more details.

Sincerely,

John Burns
